Summary

Third-year B.Tech student specializing in Artificial Intelligence and Machine Learning, with skills in Java, Python, SQL, and web development. Familiar with object-oriented programming, database management, and problem-solving. Passionate about software development and eager to apply technical knowledge to real-world projects while continuously learning new technologies.

Education

B.Tech in Artificial Intelligence and Machine Learning 2024 – present
University College of Engineering Kakinada (UCEK), JNTUK

Technical Skills

Programming Languages	: Java, Python, C
Web Technologies	: HTML, CSS, JavaScript
Database	: DBMS, SQL
Core Concepts	: Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP), Problem Solving and Operating Systems (OS)
Tools	: VS code, GitHub, Firebase, PyCharm, Jupyter Notebook

Experience

Artificial Intelligence and Machine Learning Intern SmartBridge May 2026

– Completed the APSCHE Short-Term Virtual Internship Program in AI and Machine Learning.

– Learned fundamental AI/ML concepts through structured training sessions.

Projects

Wishlist Web Application: Manages personal wishlist tasks efficiently GitHub | Demo Link
Tools: HTML, CSS, JavaScript

- Developed a responsive wishlist application with add, delete, and task completion features.
- Implemented LocalStorage to save user data across browser sessions.
- Used JavaScript for dynamic DOM manipulation and event handling.

Personal Portfolio Website: Showcases my skills, projects, and achievements Live Demo
Tools: HTML, CSS, JavaScript, AI Tools

- Developed a personal portfolio website with assistance from AI tools.
- Organized technical skills, projects, and achievements in a professional layout.
- Created a responsive and user-friendly interface to showcase my profile online.

Electricity Bill Management System: Organizes and manages electricity billing records GitHub
Tools: DBMS, MySQL, SQL

- Designed a relational database to manage customer details, billing, and payment records.
- Implemented SQL queries for bill generation, data retrieval, and payment tracking.
- Applied DBMS concepts and normalization to improve data organization and accuracy.

Certificates and Achievements

- **The Competitiveness Mindset Institute, USA – Finding Leader in You Scholar Program**
- **GeeksforGeeks (GFG):** Java Programming , Soft Skills , AI Tools
- **Infosys:** Programming using Java , DBMS
- Won the ISEA Hackathon at JNTUK by developing an innovative solution under time constraints, demonstrating teamwork and problem-solving skills.
- Selected for the Foundation for Excellence (FFE) Scholarship based on academic merit.
